Introducing for the First Time

That Changes back to Normal from PCOD

CYSTORIN*

Capsules

Today's Lifestyle, Unusual Stress & Competition for Advancement Contributes to Miserable life

A passionate combination of women and hormones are compassionated for a healthy and happy generations.

The Complete Composition That Changes Back to Normal

MANGIFERA INDICA - 60MG

MIMOSA PUDICA - 60MG

AEGLE MARMELLOS - 60MG

MYRISTICA FRAGRANS - 60MG

ZINGIBER OFFICINALE - 20MG.

EUGENIA FAMBALONE - 60MG,

CYPERUS ROTUNDUS - 60MG,

SYMPLOCOS RACEMOSA - 60MG,

PIPPER NIGRUM - 60MG,

PCOD/PCOS

- A polycystic ovarian diseases or syndrome is a characterized by a state of chronic oligo-ovulation or oligo- menorrhea or amenorrhea.
- It is caused due to disruption of hypothalamic- pituitary-ovarian axis(high normal luteinizing hormone& low normal follicle stimulating hormoneleading to ovarian hyperandrogenism and follicular atresia and anovulation)
- PCOD is a metabolic disorder in women which is caused by the hormonal imbalance. Ovulation is a phase in the menstrual cycle which is the release of egg from women ovary. Ovaries also produce a small number of androgens, which are male reproductive hormone.
- PCOD is the medical condition where the ovaries produce multiple eggs which over time becomes cysts on the ovaries.
- We all know that ovaries are the reproductive organs of female which controls the menstrual cycle as well as the production of hormones like estrogen, progesterone, inhibin, relaxin etc.
- Here the eggs released by the ovary swells the edges of ovary resulting in release of large quantties of male hormones thus causing infertility.

The proven combination eradicates the signs of PCOS such as Hormonal imbalance, Obesity, Unwanted Hair, Amenorrhea, Metrorrhagia, Oligomenorrhea and Encourages timely Ovulation.

- MANGIFERA INDICA helps in PCOD by improving insulin sensitivity, reducing inflammation, balancing hormones and supports ovarian function.
- The bio active compounds in Mangifera indica modulates FSH, LH, Estrogen levels, promoting follicular development and ovulation.
- Anti oxidants in Mangifera improves Granulosa cell function, supporting egg maturation and ovarian health.
- It helps in reducing LDL, Triglycerides, and increasing HDL via its Flavonoids content and enhances fat metabolism and reduces Adipogenesis, aiding in weight management.

EUGENIA FAMBALONE helps balance androgen levels, reducing testosterone levels and DHEA levels, which are often elevated in PCOD.

- Supports Estrogen, Progesterone Balance aiding in menstrual cycle regulation.
- Reduces Ovarian Fibrosis, Improving follicular development and ovulation.
- Protects against lipid peroxidation and oxidative damage to ovarian tissue.

MIMOSA PUDICA Helps in harmonal balance and Anti Androgenic effects

- It may regulates fsh(follicle stimulating hormone) and LH (Luteinizinghormone) balance, improving ovarian follicular development.
- Its potential anti androgenic effects may help reduce hirsutism (excess hair growth), acne and hair loss, common symptoms of PCOD
- The polyphenols and tannins in mimosa pudica, helps reduce oxidative stress and support liver function.

It promotes a regular menstrual cycle and ovulation; it also helps in reducing ovarian cyst formation by improving follicular health.

CYPERUS ROTUNDUS helps manage PCOD by balancing Harmones, Reducing inflammation, Improving Insulin sensitivity and supports Ovarian function.

It is widely used for hormonal and metabolic disorders, including pcod.

Its effects on PCOD can be attributed to phytochemical compounds, including flavonoids, alkaloids, terpenoids and saponins which regulates hormone metabolism, inflammation and oxidative stress.

It has phytoestrogenic activity, which helps regulates estrogen levels and reduce androgen excess, leading to improved ovarian function and modulated gnrh(gonadotropin releasing hormone) signaling, helping restore normal ovulation and menstrual cycles.

It reduces ovarian androgen production, leading to better follicular development and reduced cyst formation.

Indicated inhibition activity against D2 and opioid receptors.

The dopaminergic compounds also beneficial for pre menstrual mastodynia and some other symptoms linked with premenstrual syndrome

Ocimum sanctum : Anti oxidant properties of Holy basil help balance the hormones and neutralize estrogen in the body.

Brassica juncea : Anti oxidant effect, Rich in Vit,k, Potential immune booster with abundant Vit c Prevents osteoporosis.

FERTILITY?

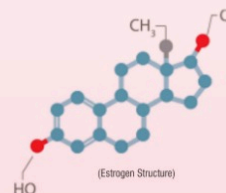

an Alarming Epidemic?!!

That too... In India!
India is with very rich Heritage

Why ?

Men & Women are becoming Impotent

Because this results Xenoestrogen non stop attack on
Mankind and leads to **Estrogen Dominance Syndrome**

Introducing for the First Time

**ESTROCLEN*** Caplets

Ocimum sanctum 420 mg, Vitex agnus castus Linn 100 mg
Resveratrol of vitis vinifera 5 mg & Brassica juncea 100 mg

That eases out and cleans the excess Estrogen

Female

In Women Excess estrogen slows down Thyroid function and causes weight gain They also brings Extream symptoms of **PMS** and **Manopause**.

High estrogen levels decreases master anti Glutathione which rises oxidative stress -an early step in cancer formation.

High estrogen rises cancer causing free radicals and wipes out defence system.

Males

Our modern environment has increased Estrogen levels in men. Endocrine disrupting chemicals entered human body through environmental pollution.

These every day Chemicals and xeno estrogens killing masculinity

Excess Estrogen eliminates Testosterone, robs strength and stamina and wipe out the ability to have sex.

Excess Estrogen leads to Erectile dysfunction, Man Breasts, Loss of body hair, loss of muscle mass

ESTROCLEN* Caplets

In DIABETICS

Sugar loaded diet can trigger a hormonal imbalance that forces your body to convert testosterone in estrogen

Eating excess amount of Sugar leads to turning it into fat cells, which Produces estrogen.

High blood sugar levels can effect testosterone levels in both men and women - low in men and high in women

The Key ingredients transform feminizing Estrogen in to neutral form that is not harmful to the human body.

ESTROCLEN removes only Excess Estrogen from our body.

Vitex Agnus cactus increases levels of Progesterone, bringing the ratio of Estrogen to progesterone, a testosterone precursor back in to balance.

Resveratrol of **Vitis vinifera** play a role in the Estrogen metabolism. At low dose Resveratrol blocks Estrogen.

Silybum Marianum extract-250mg, Withania Somnifera Dunal-500mg, Astragals Gummifer Labill-60mg, L-Arginine-50mg, L-Carnitine-50mg, N-Acetyl Cysteine-50mg

TELAGE*

Capsules

Based on Telomeres

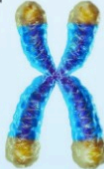

A NOBEL PRIZE WINNING TELOMERE BIOLOGY RESEARCH.

TELAGE "The Telomere Timing Technology That makes Perpetually Younger & Energetic with 200% Boost"

TELOMERES are the protective caps at the ends of the Chromosomes; they act like plastic tips of shoelaces, preventing DNA damage, maintain genome stability and ensure proper cell function

Telomeres are very important for

- **CELL PROTECTION:**
They prevent chromosomes from fraying and sticking together.
- **CELLULAR AGEING:**
Each time a cell divides Telomeres shortens, when they become too short cells stop dividing that leads to cellular apoptosis and causes Ageing.

- **DISEASES PREVENTION:**
Shortened telomeres are linked to age related Diseases including Heart Diseases, Diabetes, lung diseases, neurological disorders, Psychosomatic Disorders, auto immune disorders, anti ageing and cancer.

The Great Discovery of our time that times an Age Transforming Therapy

That Controls Genetic Code, Makes Perpetually younger

TELAGE the Complete Combinations of Extracts Offers Telomere Length Maintenance by

- 1.Reducing oxidative stress and DNA damage
- 2.Enhancing telomerase activity(TERT) expression.
- 3.Anti-Inflammatory Effects.
- 4.Supporting Mitochondrial Function.
- 5.Promoting DNA Repair and Genome Stability.

FATEASE[®]-5 Caplets

The world's only supplement that gives all Five of weight loss finger food ingredients.

Fat-melting power of 5 ingredients that

- Shrinks the stomach... Thin the thighs... and lose those stubborn to regain the slimmer physique of the youth.

Introducing for the First Time

The power of Five

FATEASE*-5

Caplet

That knockout the Fat easily with fist of Five.

FATEASE-5

Caplets curb cravings and turbocharge metabolism for rapid weight loss.

- Shed excess weight from the waist and all over the body.
- Balance Blood Sugar
- Support healthy Cholesterol
- No grueling exercise required.

This process comes from the power of Five.

(Finger -1)

African Mango Seed Extract

Westren scientists have unrevealed the secret of Metabolism igniting power from Cameroon.

African mango seed extract helps stay the cameroon people, world's Slimmest & Trimmest. While releasing floods of energy and supporting healthy blood sugar and cholesterol.

In fact, it is a discovery now backed by the mounting weight of research by **Drexal University** and other elite institutes research, that stunning revealed.

This Mango seed ingredient that helps turbo-charge as much as 12.701 Kg of fat loss and shrinks waistline by upto 7 inches.

African Mango seed has incredible Leptin-hijacking CRP plushing power.

(Finger-2)

Japanese "Slimming wonder" helps burn off 5X more weight even after feasting on bowel full of rice and noodles

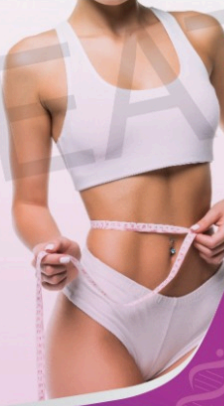

"The Japanese are famed through the world for their slim bodies."

Fucoxanthin - a spirulina extract.

It is a food that turns starch of white fat into energy burns. So, one can convert fat into energy.

UCP-1 Protein hidden in every fat cell in our bodies directs stored fat to be burned as fuel.

Fucoxanthin re-ignites UCP-1 so, that stores of unhealthy white fat starts acting like energizing brown fat.

(Finger-3)

Italian White Kidney Bean Extract.

Italian cannellini Beans can work wonders at giving your digestion a helping hand to process the vast amounts of carbs.

Italians are best known for their well-balanced structures and body.

Doctors report amazing weight loss in 30 days with properly processed extract of white Kidney Bean extract for its exemplar carb blocking powers.

(Finger-4)

Garcinia Campuglia.

Slim down and get happy with this Asians sour Pumpkin

Asian people have ribbed on Garcinia's rind contains high amounts of Hydroxy Citric Acid (HCA) to curb cravings for centuries.

- HCA is thought to help support healthy amounts of "Happy Hormone" "Serotonin", and with adequate Serotonin, people are less likely to snack.
- GARCINIA helps promote healthy serotonin and eliminate cravings for fettering snack.

(Finger-5)

Chromium Picolinate

Switch off Sugar cravings like a light switch with weight loss slimming miracle mineral

- Chromium picolinate works in tendons with insulin to help more blood sugar into the body's cells to be burned as energy.
- With more blood sugar available as fuel, the cravings for sweets, fettering's treats plummet.

AEGLIS MARMELOS (BAEL) is a medicinal plant and its bio active compounds, including flavonoids, alkaloids, tannins and coumarins contributes to its therapeutic effects.

Aegle marmelos contains phytoestrogen which help balance estrogen and progesterone, supporting ovarian health.

Regulates GnRH secretion improving ovulation and menstrual cycle regularity, decreases ovarian androgen production, helps in follicular development and reducing cyst formation.

SYMPLOCOS RACEMOSA helps regulate the HPO (hypothalamic-pituitary-ovarian) axis, balancing estrogen and progesterone levels.

It reduces LH – FSH ratio, restoring normal ovarian function and promoting regular ovulation.

Lodhra suppresses excess ovarian androgen production preventing follicular cyst formation and aiding normal follicular development.

MYRISTICA FRAGRANS (NUTMEG) is known for its anti-inflammatory, anti-androgenic, insulin sensitizing and anti-oxidant properties, making it a potential natural remedy for polycystic ovarian diseases (PCOD).

Its bio active compounds including myristicin, elemicin, mace lignan, eugenol and flavonoids contribute to its therapeutic effects.

PIPPER NIGRUM as several bio active compounds like piperine, helps in PCOD by improving insulin sensitivity, reducing androgen excess, lowering inflammation, promoting ovulation and acts as an anti-oxidant.

ZINGIBER OFFICINALE helps in managing PCOD by improving insulin sensitivity, reducing androgen levels, lowering inflammation, promoting ovulation and acts as an anti-oxidant.

- Cystorin decreases insulin resistance, restores neuro-hormonal balance.
- Cystorin Rich in anti-oxidant and immuno modulators.
- Cystorin eliminates the prolonged therapy
- Cystorin is free from side effects, accurate and safe.
